## Welcome

Your Dentist has referred you to a Denturist. Denturists specialize in the design, manufacturing and care of removable dental prosthetics. Denturists work one on one with patients from beginning to end and because of this, they can provide you with the best possible treatment plan even in unique situations. Restoring prosthetic fit and function, while creating for you an aesthetically pleasing appearance, is our goal at the Brookwood Denture Clinic.

Since Denturists limit their practice to prosthetic procedures, IF YOU HAVE ANY REMAINING NATURAL TEETH YOU WILL NEED TO RETURN TO YOUR DENTIST FOR REGULAR CHECK-UPS AND TREATMENT.

When you make your appointment, please advise our office if you have any special needs and try to arrive 10 - 15 minutes prior to your appointment to complete the necessary paperwork. Our office is dedicated to keeping you comfortable during your treatment, honoring your appointment time and providing you with a clean and cheerful environment. We look forward to serving you.
